## EXPERIENCE

### ● **Emortal Sports** Web Development & UI Design

Project, Sept 2016 - Apr 2017

Create and support a virtual reality RTS game (Beasts + Heroes) for Seattle's startup Emortal Sports. Responsible for the visual design and the HTML5/CSS3 templating of the website. Conduct research and developed information architecture, user flows, wireframes, and UI elements.

### ● **Velvet Beauty Bar Toluca** Web Development & Designer

Freelance Job, Mar 2019 - Oct 2019

Establish a digital presence of a modern beauty "salon" to increase their audience reach and attract new/potential customers of their services. Responsible for the design, development and launch of the website. Developed user flows, wireframes, UI elements, and the overall look and feel. Hand-coded the website and maintained the front-end functionality of the site.

### ● **Dutch Bros** (Concept App) UI Designer

Side Project, Aug 2019 - Nov 2019

Dutch Bros Rewards it's an app that will virtually carry your DB punchcard with you and keep track of your points; replacing their existing "paper punchcard" rewards system. The app will let you earn, redeem and store your points. Responsible for coming up with the idea and developing it. Created user flows, wireframes, UI elements, it's design system, and prototyped multiple iterations.
